

JOB TITLE: Professional Network Engineer
LOCATION: Droitwich, Worcestershire
SALARY: £35,000 to £45,000
BENEFITS: Company Car, Pension, Private Healthcare, Life Assurance, Mobile Phone

GGR Communications is an engineering-based company with a reputation built on the provision of sound technical solutions to suit customer requirements. Founded in 1994 as a specialist Networking Company with expertise in legacy WANs, GGR has grown to offer the latest solutions and technologies for LAN, both fixed and wireless, IP Telephone (VoIP) and routed WAN. We are experts in Cisco technology, and have Premier Partner accreditation.

We are currently looking for a Senior Network Engineer to join our expanding team. You will possess a strong work ethic, a flexible attitude with an ability to perform under pressure. You will have excellent communication skills, both verbal and written and be personable and communicative in a customer facing environment. You will have a desire for continuous development and a willingness and ability to learn new technologies.

Key Areas of Responsibilities include:

- Configuration of networking equipment, primarily Cisco
- Installation of equipment at customer premises
- Fault diagnosis of network and equipment both remotely and at customer premises
- Completion of documentation where required
- Additional support for the Engineering Support Team
- Escalation point for Junior Engineers
- Technical project management

Key Skills and Qualifications include:

- Relevant Degree (Computer Science, Systems, Software Engineering, Mathematics)
- Professional level Cisco Certification
- Experience of day to day working with Cisco technologies
- Good organizational skills
- Meticulous approach to problem solving
- Valid Driving License
- Experience of general networking principles

In addition it would be advantageous to have Microsoft/Linux and virtualization technologies experience.

Interested candidates should forward their CVs and covering letter to khg@ggr.net

NB: Strictly no agencies to apply or send CVs.
